

RESEARCH & CAMPAIGNS

Conversations with people about Hate Crime

This is a project by the research team at Victim Support who are eager to speak with people over the age of 18 who have been affected by Hate Crime to help the Welsh Government understand what support is needed for victims of Hate Crime and how to make that support more accessible.

Ideally, they would like to speak to people with recent experience of Hate Crime (within the last 3-5 years).

The research project will close 30 November 2020.
